THE APPRAISAL OF CONTENT IS TENTATIVE.
(FOR KEY SEE REVERSE)

1. In the shipyard situated in the southern corner of No. 7 Basin, Gdynia Harbor, only one of the two broadside launching ways appeared to be occupied. The building way, which was clearly seen, was occupied by a coaster under construction of about 600 d.w.t.
2. Alongside the fitting-out quay between Nos. 6 and 7 Basins were four coasters of the 600 d.w.t. class. Two of them were completed and flew the Soviet ensign; the other two vessels were fitting out and had no indication of nationality.
3. In No. 6 Basin there were three floating docks; one large, which was old, and two small ones.
4. Also in the basin were two floating cranes; one of 100 tons and the other of about 50 to 60 tons capacity. There is a new floating crane under construction, which is also to have a capacity of 100 tons.
